

Personal Risk Management Assessment

- 1) Do you have a **personal umbrella policy**? An umbrella policy provides liability coverage in addition to your primary policies and is typically sold in \$1 million increments.
- 2) Does your insurance carrier **provide liability limits in excess of \$5 million**? Does your insurance provider have the financial capability to protect your assets should a claim exceed your net worth?
- 3) Has your insurance agent and/or carrier developed a **risk management strategy** to protect you from a rising climate of liability claims?
- 4) If you have domestic employees working more than 20 hours per week, do you provide state-mandated **workers compensation coverage**? Do you have the option of **complimentary background investigations**? Are you protected from other domestic employee liability claims?
- 5) Does your carrier provide **deductible options** of \$10,000, \$25,000, \$50,000 or \$100,000? Will your carrier waive your deductible for losses greater than \$50,000?
- 6) Do you have a **collections or valuable articles policy** for your jewelry, silver, fine art, antiques, breakables, wine and other collections?
- 7) Does your carrier provide adequate protection from damage caused by **earthquake or flood**?
- 8) Does your carrier outsource **earthquake or windstorm** coverage to a state-run government agency?
- 9) Is your home properly insured for the full **replacement cost** value?
- 10) Did your carrier provide an **in-home appraisal** or inspection to determine the value to rebuild your home?
- 11) Will your insurance carrier pay more than the policy's face value of your home in the event it costs more to rebuild?
- 12) Does your policy provide a **cash-out** option for total losses and/or partial losses?
- 13) When was your last **personal insurance review** with your insurance agent? Did they ensure that your current risk management strategy meets your changing needs?
