

About Engineered Environments

We are the premier, award winning residential electronic systems design, installation and integration firm specializing in lifestyle solutions for sophisticated custom homes.

Typically engaged as part of the design team, we work closely with the owner, architect, designers and contractor to develop and engineer an *easy-to-use* system designed for your lifestyle. Our systems are for discerning clientele building or renovating larger, sophisticated homes who appreciate the benefits of expertly applied technology.

Highlights include:

- 15 years in business with over 55 employees focusing exclusively on sophisticated, high-end homes
- Simple systems to sophisticated systems made simple:
 - *Whole Home Audio*
 - *Centralized Video Distribution*
 - *Lighting & Shade Control*
 - *Climate Control Integration*
 - *Security Integration & Perimeter Site Security*
 - *Video Surveillance, CCTV*
 - *Home Theater & Media Rooms*
 - *Voice & Data Communications*
 - *Pool, Spa & Landscape Integration*
 - *Custom Automation & Motorization*
 - *Energy Management and Monitoring*
 - *Touch Panel & Remote Integration*
- Award winning Whole-Home control interface:
 - Easy-to-use, floor-plan based interface for touch panels and wireless devices
 - Our "overlay" control design enables you to also interface with each system separately if desired, eliminating the "single point of failure" liability of some home control systems
- Full service provider – consultation and design, documentation, professional project management, installation, custom programming, long-term service and support
 - Professional in-house engineers and programmers create technology solutions that simplify your life while preserving your home's architectural beauty, design and décor
 - Professional project management teams and technicians, skilled in large luxury homes, work with your contractor, architect and designers to ensure a successful project
 - Detailed documentation, drawings and "as-built" schematics ensure a smooth installation and the ability to easily modify or expand in the future
 - In-house programmers ensure your system operates exactly how you want it to, even if you decide to make changes. Also, you receive the programming code, so you can easily modify in the future
- National award winning (CEDIA) quality, design and service:
 - ★ **Prestigious and coveted CEDIA Residential Systems Contractor of the Year 2002**
 - ★ **"Best Integrated Home" four of the past five years**
 - ★ **"Best Media Room" 2007 – "The Sportsman's Dream"**
 - ★ **"Best Special Project" 2007 – "Dive-In Theater": An outdoor home theater on Maui**
 - ★ **Multiple winner of "Best Dressed System" – Exemplifying our quality workmanship**
- "Hidden, blended and elegant" technology to maintain the design and décor of your elegant home
- Dedicated Customer Service department provides outstanding long-term support, plus an extendable 1-year warranty that ensures complete satisfaction with your system
